

HUSSL ST6N

Compact, colourful, variable.

The ST6N is a chair for little space and high standards. It is beautiful, sturdy and versatile. Its design is a continuation of the Austrian coffeehouse tradition, its character is contemporary and unmistakable.

On the basis of the chair with two different backrest shapes, we have developed several variants over the years. Available as a barstool with or without backrest, as a stool and bench without backrest, and as a highchair.

Design: Arge 2 | Michael Spindler, Georg Kaserer

We say: a classic of tomorrow.

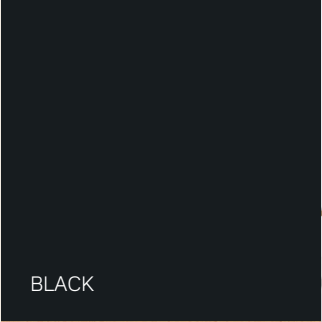

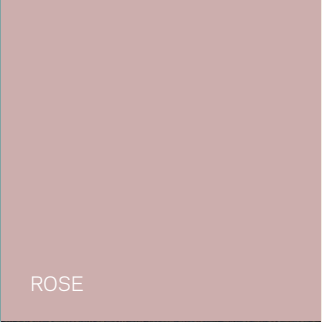

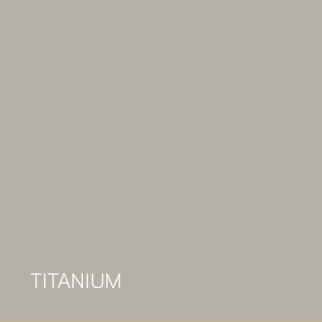

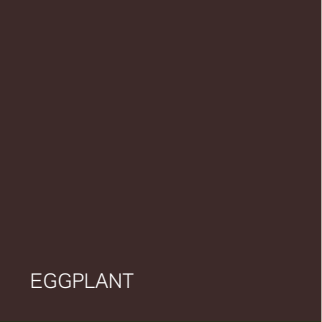

Balthasar Kaffee Bar, Vienna | Photo: Tony Gigov

The different backrests and colour combinations allow for a wide range of style and design options. From classic to pop. From austere and simple to elegant and lively.
